Cause of Sickness-More Quakes at Reggio Tuesday-Persons Still Being Taken from the Ruins Alive.

Rome, Jan. 6.-The report from

Measina that typhoid fever has broken out there has filled the authorities with alarm and apprehension. It is realized here that unless proper sanitary precautions are taken at once the disease may spread far outside the ruined districts. Even though the present cases may prove to be dysentery, it is well known that this disease under such conditions as prevail at Messina and Reggio would be likely to prove just as fatal as typhoid itself. According to medical authorities, it is dysentery that has been responsible for the decimation of almost whole armies in time of war and the excitwater and the ingestion of articles anfit for food. Physicians here are inclined to think that dysentery is more to be feared than other disease in the devastated regions. It was very fatal in the Crimea in 1854, in the armies

Federal Sleuths Kept on the Jump

WASHINGTON.—That branch of the public service which its detractors called "the government spy system," or "the Black Cabinet," has been brought into conspicuous prominence by the tiff between congress and the president, growing out of the criticism in the president's message of the action of congress in circumscribing the activities of the secret service.

The system of government esplonage over the private citizen has grown in an unprecedented manner under the administration of President Roosevelt. Whether it conduces to the general public welfare is a matter for publicists to discuss, but as to the that the secret service has reached greater extensions than ever before there can be no doubt.

about by the executive branch of the

Originally the secret service of the United States had two functions and two only. Those were the detection of counterfeiters and the hunting down of High distillers. A good many years ago, however, long before Mr. Roosevelt entered public life, one of the presidents detailed secret service men to serve at the White House. There was not the slightest authority in law for such a procedure, but congress had a good deal of consideration for the executive and this violation of law went on year after year. Finally congress, seeing that the practice had become permanent and not wishing to engage in a dispute with the executive branch, conferred the legal authority necessary to enable presidents to make such a detail.

Gradually the presidents enlarged the practice of detailing secret service men and sent them hither and yonder on all sorts of errands. Then other administration officers-cabinet chiefs and even bureau heads-without the remotest authority in law, called upon the secret service branch for agents to send out on confiden-This extension has been brought tial missions. vision limiting the functions of the secret service, it was not striking at the president, but at a custom. At least that is the solemn assertion of all the members who had anything to do with it. Representative Walter L. Smith of Iowa, drafted the provision and it was put in with the approval of Chairman Tawney and all the members of the appropriations committee. Gradually congress itself has en-

larged the inspection, or espionage, system of the government, but for the most part, it has done so under executive pressure. Naturally, the fact ming the sundry civil bill it was that the congressmen helped to cre ate so many "sples" would be expect ed to stop their criticism, but it is been assigned to keep watch over the fashionable now to blame a good many things on the president. He had promised Morton to stop for him, and sneaking into that gentleman's yard, he approached the house by the back door, expecting to enter the cellar and join Morton, likewise disguised as a tramp. That was what they had planned and Morton was to have left the cellar door unlocked. As Bings rounded the corner of the

A STEADY DRAIN.

Sick Kidneys Weaken the Whole Body -- Make You III, Languid and Depressed.

Sick kidneys weaken the body through the continual drainage of life-giving albumen from the blood into the urine, and the substitution of poisceous uric acid that goes broadcast through the system, sowing the seeds of disease. Loss of albumen caures weakness, languer, depression. Uric poisoning causes rheumatic pain, pervouspess, nausra, ericks in the back, gravel and kidney stones. The proper treatment is a kidney treatment, and the bust remedy is Doan's Kidney Pills.

Paul Policy, 627 N. Park Ave., Alliance. Ohio, says: "I am employed out of doors most of the time and the exposure to all kinds of weather ne doubt brought on my kidney trouble. I suffered from this disease for a long time. I would arise in the morning so lame and stiff and feeling so worn out that I was hardly able to go to work. Whenever I stopped, the pain would be more severe and I often became so bad that I could hardly walk. I also had more or less trouble with my kidneys, the secretions being very irregular, A neighbor finally advised me to try Doan's Kidney Pills and I procured a box. They soon regulated the kidney secretions. My back also ceased to ache. I have not had a return of kidney complaint since and therefore think very highly of Boan's Kidney Pills.
